<sup>\*</sup> The Organizations did not have any gain or loss on investments for which carrying value is not fair value.

The Organizations' investment strategy places all its investments (except loans receivable and debt securities that qualify as "held to maturity") in a class for which accounting standards require the carrying value to be at fair value.

Fair values at year end are determined by reference to the following "levels" of information:	2013 Total	2012 Total
Level 1: Observable quoted market prices for identical items	1,227,507	1,133,693
Level 2: Observable quoted market prices for similar items, and other observable market data correlated to specific assets	19,838,923	17,262,602
Level 3: Unobservable other information from investment fund managers, which assets they use market data to determine the unit values which are communicated to investors	0	0

#### Note 11 - Split-interest Agreements

As of December 31, 2013 and 2012, respectively, the Organization served as trustee of 17 and 18 revocable trusts. Since the trustors of these agreements have reserved the right to direct and control the investment of the related assets, no assets or liabilities related to these trusts are included in the financial statements.

The Organization is generally a remainder beneficiary of at least a portion of the trust assets. Also, the Organization may be beneficiary of wills or trusts administered by other trustees of which the Organization may not be aware.

The General Conference Auditing Service has performed an audit of the Organization's administration of the agreements for which it is trustee, and has issued a separate report thereon dated June 05, 2014.

#### Note 16 - Pension and Other Post-Retirement Benefits

#### Defined benefit plans

The Organization participates in the following non-contributory, defined benefit plans:

1. The defined benefit pension plan known as the Seventh-day Adventist Retirement Plan of the North American Division (NADRP). This plan, which covers substantially all employees of the Organization, is administered by the General Conference of Seventh-day Adventists, North American Division (NAD), in Silver Spring, Maryland, and is exempt from the Employee Retirement Income Security Act of 1974 as a "multiple-employer" plan of a church-related agency. The plan provides primarily monthly pension benefits based on years of service and other factors.

The NAD Committee voted to freeze accrual of service credit in NADRP effective December 31, 1999, except for employees who chose the career completion option, and to start a new defined contribution plan effective January 1, 2000. Certain employees will continue to be eligible for future benefits under this plan. The Organization continues to make contributions to this plan, at rates determined annually by the plan.

2. The defined benefit health care plan known as the Health Care Assistance Plan for Participants in the Seventh-day Adventist Retirement Plan of the North American Division (HCAPRP). This plan, which covers substantially all employees of the Organization, is administered by NAD in Silver Spring, Maryland, and is exempt from the Employee Retirement Income Security Act of 1974 as a "multiple-employer "plan of a church-related agency. This plan provides primarily health-care benefits which supplement Medicare benefits. The extent of these benefits is based on years of service and the beneficiary's monthly contribution.

Accounting standards define these plans as "multiemployer" plans. As such, it is not required, nor is it possible, to determine the actuarial value of accumulated benefits or plan net assets for employees of the Organization apart from other plan participants.

Information about the required contributions to these plans, the actuarial obligation for future benefits, and the funded status of these plans, are presented in the tables below.

Required contributions from the Organization:	NADRP	<b>HCAPRP</b>	TOTAL

#### Risks and other information

The risks of participating in multiemployer plans are different from single-employer plans, in the following aspects:

- Assets contributed to a multiemployer plan by one employer may be used to provide benefits to employees of other participating employers
- If a participating employer stops contributing to a plan, the unfunded obligations of the plan may be borne by the remaining participating employers.
- If the Organization chooses to stop participating in a multiemployer plan, the Organization may be required to pay the plan an amount based on the underfunded status of the plan, referred to as a withdrawal liability.

Other information about risks and contingencies related to these plans are as follows:

- Information about the plans in not publicly available, so no "certified zone status" has been determined.
- The Organization's required contributions are not the subject of any collective bargaining agreement.
- No funding improvement plans or rehabilitation plans had been implemented or were pending.
- The Organization has not paid any "surcharge" to either of the plans.
- No minimum contribution for future periods has been determined or required of the Organization.
- No actuarial evaluation has been performed of the HCAPRP, so that information has been omitted.

#### Defined contribution plan

Effective January 1, 2000, the Organization participates in a defined contribution retirement plan known as The Adventist Retirement Plan. This plan, which covers substantially all employees of the Organization, is administered by NAD in Silver Spring, Maryland, and is exempt from the Employee Retirement Income Security Act of 1974 as a "multiple-employer" plan of a church-related agency.

The Organization contributed \$1,582,762 and \$1,500,200 to the plan for the years ended December 31, 2013 and 2012 respectively, based on a stated percentage of each employee's earnings and a stated matching percentage of employee voluntary contributions. Administration of the accumulated contributions designated for each employee is provided under an agreement between the NAD Corporation and VALIC.

Notes to the Combined Financial Statements For the years ended December 31, 2013 and 2012

#### Note 17 - Contingent Liabilities and Concentration of Risk

The Organization has guaranteed certain liabilities of the local church congregations and school constituencies payable to Professional and Business Associates and the Southern Union Revolving Fund. These loans were used to acquire certain assets that are included within church and school properties in Note 7. (Some of these properties are recorded as collateral for some of these loans.) The total balance due on these loans was \$21,097,543 and \$24,184,703 at December 31, 2013 and 2012, respectively. Principal and interest payments on these loans are scheduled to be made by the local congregations and constituencies. At December 31, 2013, approximately one church congregation was delinquent on its payment schedule.

The Organization receives most of their revenue in the form of contributions from members living within their territory. The amount of contributions is subject to economic conditions that could cause loss of income among church members. The amount of contributions could also be subject to decrease if any significant number of individuals cease to be active members.

The Organization's assets included \$9,479,440 and \$7,167,338 of loans receivable from related organizations and \$0 and \$0 of loans and mortgages receivable from employees at December 31, 2013 and 2012, respectively. These loans represent 6.56% and 4.98% of the Organization's total assets as of December 31, 2013 and 2012, respectively. Management's estimate of the collectibility of these loans could be subject to the same economic impact as mentioned above for contribution revenue.

Cash, which exceeded the federally insured limits at certain times during the year and at year end, is deposited with high-credit-quality financial institutions.

On April 4, 2013 the Georgia Department of Revenue notified the Organization that an audit had been conducted on Sales & Use Tax for the period January 1, 2008 through December 31, 2012 at Cohutta Springs Convention Center. This audit resulted in an assessed tax liability of \$521,134. The Organization has obtained legal counsel, and plans to contest a major portion of this assessment, as many of the related transactions involve inter-organizational and inter-denominational use of the facility. As of the date of this report, any resulting tax liability is not yet reasonably estimable.
